

Overview

Pradhan Mantri Surakshit Matritva Abhiyan (PMSMA) was launched on **9th June 2016** by the Ministry of Health & Family Welfare. It provides **assured, comprehensive, and quality antenatal care (ANC) free of cost** to all pregnant women on the **9th of every month** at designated government health facilities.

The Abhiyan ensures that every pregnant woman is examined by a physician (OBGY specialist, radiologist, or physician) at least once during pregnancy and appropriately followed up, which can significantly reduce maternal and neonatal deaths.

Eligibility

Who Can Benefit

- **All pregnant women** in their **2nd and 3rd trimesters**
- **No income restrictions**
- **No caste or category restrictions**
- **No location restrictions** — available in both rural and urban areas
- Special focus on:
 - Women who have **not registered for ANC** (left out/missed)
 - Women who registered but **did not avail ANC services** (dropouts)
 - **High-risk pregnancies**

When to Visit

- **9th of every month** (or the nearest working day if 9th is a holiday)
- During **2nd trimester (4th–6th month)** and **3rd trimester (7th–9th month)** of pregnancy

Services Provided

Minimum Package of ANC Services

1. **Routine Antenatal Check-up** — General physical examination
2. **Blood Pressure Monitoring** — To detect hypertension/preeclampsia
3. **Blood Tests** — Hemoglobin, blood group, HIV, syphilis, etc.
4. **Urine Tests** — Protein and sugar detection
5. **Ultrasound Scan** — One ultrasound during 2nd trimester
6. **Iron-Folic Acid (IFA) Supplements** — Free supply
7. **Calcium Supplements** — Free supply
8. **Nutritional Counselling** — Diet advice for mother and baby
9. **Safe Motherhood Booklet** — Education material provided

Specialist Care

- Services provided by **OBGY specialists**
- **Radiologists** for ultrasound
- **Physicians** for high-risk cases

- Private sector doctors also volunteer at government facilities where government specialists are inadequate

High-Risk Pregnancy Identification

- **Green Sticker:** No risk factor detected
- **Red Sticker:** High-risk pregnancy identified
- High-risk cases get special follow-up and attention
- Risk factors include: anemia, hypertension, diabetes, previous complicated pregnancy, multiple pregnancies, etc.

Documents Required

No specific documents required. However, carrying the following helps:

1. **Mother and Child Protection (MCP) Card** (if already registered)
2. **Aadhaar Card** (for identity and record linking)
3. **Previous medical records** (if any)

How to Avail

1. **Mark Your Calendar:** Remember the **9th of every month**
2. **Find Nearest PMSMA Facility:** PHC, CHC, District Hospital, or Urban Health Facility
3. **Visit on 9th:** No prior appointment needed (single-window approach)
4. **Receive All Services:** All tests, medicines, and counselling provided in one visit
5. **Get MCP Card Updated:** Sticker (Green/Red) applied based on risk assessment
6. **Follow-up:** High-risk cases get scheduled follow-up visits

Important Notes

- **Completely free** — no charges for any service
- Available at all government health facilities (PHCs, CHCs, District Hospitals, Urban Health Facilities)
- Private doctors also participate voluntarily at government facilities
- National Portal and Mobile App available for tracking and information
- ‘IPledgeFor9’ Awards recognize outstanding contributions by states and districts
- If 9th is a Sunday/holiday, services are provided on the nearest working day
